

Biomedische wetenschappen jaar 2

(2026-2027)

Lijst boeken per blok

Vak	Lijst opleidingsbrede boeken	Lijst vakspecifieke boeken
Immunology	• Histology • The Immune System	-
Infectious Agents and Immunity	• The Immune System	-
Design and Analysis of Biomedical Studies	-	• Medical Statistics at a Glance
Introduction to the Neurosciences	• Medical Physiology • Clinically Oriented Anatomy • Neuroscience	-
Reflection on Science	• -	-
Physiology, Basic Concepts	• Medical Physiology • Clinically Oriented Anatomy • Histology	• An introduction to Cardiovascular Physiology
Hormones and the Nervous System	• Molecular Biology of het Cell • Medical Physiology • Pharmacology • Neuroscience	-
Human Pathology	• Molecular Biology of the Cell • Clinically Oriented Anatomy • Histology • Robbins and Cotran Pathologic Basics of Disease	-
Discovering Life Science Companies	-	-
Choose your future	-	-
Biomedical Academic Scientific Training 2	-	-
Communication in Science 2	-	• Communiceren over Onderzoek voor Beginners, deel 1: schriftelijk rapporteren • Communiceren over Onderzoek voor

		Beginners, deel 2: presenteren
